## Personal Scanners

Fujitsu ScanSnap scanners take the complication out of document imaging with one button ease of use. Perfect for home and small business environments, the ScanSnap family of scanners bring duplex multi-sheet scanning to everyone, combining performance and affordability in a compact size.

## Desktop/Workgroup Scanners

Fujitsu desktop/workgroup scanners provide a solid foundation for any productivity enhancing document management solution. They give users the ability to scan up to 2,000 pages per day and accommodate a wide variety of paper sizes, proving that you don't have to sacrifice performance for affordability.

## Network Scanner

Fujitsu N1800 Network Scanners provide the fastest and easiest way to get your organization scanning and sharing documents. It is the first scanner to combine the intuitive easy installation of a desktop scanner with the productivity of a network scanner.

With high security features such as Install Certificates and Secure Initialize, the N1800 Network Scanner helps assist with data security as well as compliance and regulation. Need to e-mail a document? Scan it, enter the e-mail address and touch the send e-mail icon. Additionally, the N1800 offers many integration options with complimentary ECM, EMR, CRM, document management and other third-party systems. http://us.fujitsu.com/iscanner/solutions.

## Departmental Scanners

Fujitsu departmental scanners deliver the higher throughput and added features larger organizations demand, such as a robust document feeder, long document scanning and document imprinting. PaperStream IP and PaperStream Capture are included for image processing and batch scanning, enabling users to scan to PDF files. Fast USB connectivity, plus TWAIN and ISIS drivers, ensures easy integration with hundreds of applications.

## Production Scanners

Production environments call for extremely high throughput, flexibility and reliability. Fujitsu production scanners satisfy these requirements, enabling users to scan up to 100,000 pages per day. They also feature superior  paper-handling capabilities over a wide range of sizes and thicknesses, as well as document ultrasonic double feed detection, which enhances overall productivity.

## Manage your images, documents, budget and time.

Businesses of all sizes can benefit from document management solutions based on Fujitsu Computer Products of America, Inc. (FCPA) scanners. They deliver an unbeatable combination of affordability, reliability, innovation and performance. What's more, FCPA offers a wide variety of desktop/workgroup, departmental and production scanners to satisfy the needs of:

▶ Forms Processing

▶ Front Office

▶ Document Archival

▶ Workflow

▶ Service Bureaus

▶ and many other applications

## About Fujitsu Computer Products of America, Inc.

Fujitsu Computer Products of America, Inc., a subsidiary of Fujitsu Ltd., is an established leader in the Document Imaging industry, delivering innovative scanning solutions and services that enable our customers to solve critical business productivity issues and streamline operations. We provide cutting-edge document capture for business and personal environments, backed by a comprehensive portfolio of service and support programs.
