

# POS PRINTING SOLUTIONS

RETAIL • HOSPITALITY • KIOSK • LABELING • TICKETING • LOTTERY  
AIRLINE • BANKING • HEALTHCARE • PUBLIC SAFETY • GAMING

**Star Micronics**, one of the world's largest printer manufacturers, has designed a portfolio of thermal and impact point-of-sale printers for use in a wide variety of applications. With over thirty years of manufacturing expertise and a highly-skilled R&D department, Star has not only developed printers which offer high performance and reliability, but introduced a number of unique profit-making features for the user without extra cost or extensive IT knowledge required.

## The Star Difference

Star has extensively researched the needs of its users and is proud to be able to demonstrate The Star Difference in so many areas of its business, from creating the first dedicated splash-proof cover for hospitality, to providing the lowest cost quality printer of its type.

The TSP100 *futurePRNT* will print modern TrueType fonts at the same speed as the more old-fashioned resident fonts and has accessories and installation software included; all in one box. Star Micronics' philosophy of providing more than our competitors at the right price is no more apparent than today.

## VALUE-ADDED HARDWARE DESIGNED FOR SPECIFIC APPLICATIONS

### High Performance linked with Unmatched Versatility

Star Micronics' investment in all areas of the POS Printer "Build" has led to a re-think in the measurement of print speed. Measuring "mm per second" no longer reflects the true performance that the user is looking for when waiting for that receipt. The overall combination of new technology, software drivers, the latest processing chips and the expertise to put all this together has resulted

in printers with unmatched price performance ratios – high quality, low cost printers producing up to 50 receipts per minute. And, that's not all; Star Micronics is still the only manufacturer able to produce a single station printer that can output a six inch receipt in less than one second as well as printing barcodes, labels and tickets on paper up to 0.15mm thick.

This is just one of the reasons why the TSP700II is one of the world's best known receipt printers.

## The Star Choice

Star Micronics' product philosophy has always been to give the customer a choice of products to meet their individual requirements. The wide range of choice available, encompassing

on-demand ticketing and labeling printers as well as kiosk printers, is continually expanding and with the latest addition of a revolutionary new low cost "complete" receipt printer, the demands of customers

operating in a variety of environments including hospitality, retail, kiosk construction, ticketing, and labeling are effectively being met.

## Typical Applications

	Banking & Credit Union: • TSP700II • TSP800 • HSP7000 • FVP-10		Bar Service: • SP700 • FVP-10 • TSP1000 • TSP650		Data Terminal: • SP500 • TSP650
	Convenience Stores: • HSP7000 • SP700 • TSP650		Hotel / Motel: • TSP800 • TCP300/TCP400		Kitchen: • SP700 • SP500 • FVP-10 • TSP100LAN
	Labels / Warehouse: • TSP828 • TSP700II • SM-T300		Law Enforcement: • TSP800 • SM-S400		Lottery & Gaming Kiosks: • TSP1000 • TSP700II • TUP900 • TUP500
	Healthcare: • TSP800Rx • TSP700II • TSP650		Pizza & Delivery Service: • TSP800 • SP700		Point Of Sale: • TSP100 • TSP650 • TSP700II
	QSR: • TSP100 • TSP650 • SP700 • FVP-10		Retail: • HSP7000 • TSP700II • TSP100		Spa & Salon: • TSP100 • TSP700II • TSP650

## KEY PRODUCT SUMMARY

### THERMAL PRINTERS

<b>futurePRNT SOFTWARE</b>	Details of futurePRNT Marketing and Installation Software Included with TSP100	10-11
<b>TSP100 SERIES</b>	Entry Level, High Quality Thermal Receipt Printer <b>with dedicated USB, Ethernet and PoweredUSB versions</b>	14 -15
<b>NEW TSP100ECO</b>	First Eco Dedicated POS Printer with Paper and Power Saving Features	12
<b>TSP100GT SERIES</b>	250mm / second High Speed Receipt Printer with <i>futurePRNT</i> Technology	13
<b>TSP650 SERIES</b>	High Speed 150mm / second, Value Driven Receipt Printer with Tear Bar or Autocutter	16-17
<b>NEW FVP-10 SERIES</b>	Front Loading, Voice Enabled Printer	18-19
<b>TSP700II SERIES</b>	250mm / second Multi-function Receipt Printer Suitable for Labels, Barcodes, Tickets and Kiosk Use	20-21
<b>TSP800 SERIES</b>	Unique 112mm wide, 150mm / second Barcode, Label, Receipt and Ticket Printer	22-23
<b>TSP800Rx SERIES</b>	High Speed Secured Prescription Printer	24
<b>TSP1000 SERIES</b>	Versatile Thermal Printer with up to 30 Receipts / Ticket Stacker	26-27

### MATRIX PRINTERS

<b>SP500 SERIES</b>	Low Cost, High Speed 9-pin Matrix Receipt Printers	31
<b>SP700 SERIES</b>	High Speed, "Drop-In & Print" Two Color Impact Receipt / Kitchen Printer (up to 8.9 lps)	32-33
<b>SP298 SERIES</b>	Reliable, Cost Effective Slip Printer (up to 3.1 lps)	34
<b>DP8340 SERIES</b>	Versatile, Wide (114mm), Mobile, Compact Receipt Printer (up to 2 lps)	30

### THERMAL / MATRIX HYBRID PRINTERS

<b>NEW HSP7000</b>	High Speed Thermal / Matrix Hybrid Printer	28-29
--------------------	--	-------

### KIOSK / TERMINAL / EMBEDDED PRINTERS

<b>TUP900/TUP500 SERIES</b>	High Speed Modular Kiosk Component Printing Solutions	36-37
<b>TUP992 SERIES</b>	High Speed Open Frame 150mm / second Thermal Solution with Presenter	36-37
<b>TUP592 SERIES</b>	The Ultimate Modular Kiosk Printer Solution	36-37

### LABEL PRINTERS

<b>TSP828 SERIES</b>	Dedicated 45mm to 112mm Wide, 150mm / second Label Thermal Printer with Automatic Label Peeler	25
<b>TSP800 SERIES</b>	Multi-functional 150mm / second, 112mm Wide Thermal Barcode, Label, Receipt and Ticket Printer	22-23
<b>TSP700II SERIES</b>	Multi-functional 250mm / second, up to 82.5mm Wide Thermal Barcode, Label, Receipt and Ticket Printer	20-21
<b>TUP942 SERIES</b>	80 – 112mm Wide (adjustable) 150mm / second Open Frame Thermal Kiosk Printer	36-37
<b>TUP592 SERIES</b>	45 – 82.5mm Wide (adjustable), up to 220mm / second Open Frame Thermal Kiosk Printer	36-37

### PORTABLE PRINTERS

<b>NEW SM-S200</b>	2 Inch Portable Printer with Blue Light LCD Display	38-39
<b>NEW SM-S300</b>	3 Inch Portable Printer	38-39
<b>NEW SM-T300</b>	3 Inch Ultra Durable Portable Printer with LCD Display	38-39
<b>NEW SM-S400</b>	4 Inch Portable Printer	38-39

## Star Support

Star Micronics continues to invest money and effort towards providing support for a wide selection of platforms with a full range of sophisticated printer drivers. Star Micronics' latest products demonstrate our determination to provide the best printers on the market with new "intuitive" installation software and drivers with Digital Signature Certification (WHQL) for Microsoft® Desktop Operating Systems including Windows 7 and Embedded offerings from CE to POSReady2009. This is in addition to providing full support for industry standard development platforms such as JavaPOS™, OPOS™ and Microsoft® POS for .Net.

# Star Printers Interface Table

Continuing to be an industry leader, means constantly meeting the needs of customers' individual applications. To meet this demand, Star's printers are available with a variety of interfaces. From the traditional **Serial** and **Parallel** to **USB**, **PoweredUSB**, **Ethernet** and **WiFi**, Star can provide the interface which best fits your particular application.

The secret of Star Micronics' success with this ground-breaking product is a result of the time, effort, and money invested into futurePRNT software.

futurePRNT software far exceeds the installation tools normally provided, enabling users to install high volume, custom set-ups without even taking the printer out of its box. Users can predetermine set-up requirements due to the operating platform selected as well as take advantage of ECO options Receipt Redesign and Coupon Marketing tools which will work without interfering with the current installed POS software. Star Micronics is constantly developing new futurePRNT software tools; details of which can be found on [www.futureprnt.com](http://www.futureprnt.com). Examples of just some of the Value-Added Software for Retailers include:

## TSP100ECO Paper Management

The TSP100ECO, the world's first ECO POS printer, further extends the benefits futurePRNT brings to retailers. futurePRNT's efficient Paper Management allows retailers to reduce costs & environmental damage. Paper management features include a 3mm Top Margin Default, ON Demand Feature and Automatic 80 to 58mm Receipt Compression. Star's ECO futurePRNT™ Software provides an Operator Prompt to either Print or Cancel the Print Job depending on whether the customer wants a printed receipt or not. In the event that the user selects cancel, futurePRNT enables the cancelled receipts to be reviewed or reprinted at a later time if desired. TSP100 ECO is the only partial cut printer able to achieve a 3mm Top Margin saving 8mm of paper per receipt. futurePRNT works over and above the retailer's POS Software to vertically and / or horizontally compress output for 58mm wide paper.

## The TSP100 Receipt Re-Design Tool

This revolutionary new tool has been designed to work completely independently from your current POS software and will allow users to literally redesign their receipts without changing their software. Legacy software can have embedded text and graphics which you may have always wanted to change. With the new **RECEIPT CROPPING TOOL**, you can crop unwanted sections, which creates space for new graphics and text.

The unique Star Selectable **PREVIEW TOOL** will make this task even easier. Perhaps the most important element will be the **FONT REPLACEMENT TOOL** making the printer's resident fonts no longer relevant. This, along with the other tools mentioned, will be available from the printer's properties page and, when selected, will replace any non TrueType fonts featured on the receipt with a more attractive / effective font – all without affecting the speed of the printer.

**Literally redesign your receipt without changing your software or becoming an IT expert.**  
**Crop out embedded text and images, add new profit-making messages and graphics.**

## Coupon Marketing Tool with the TSP100

Star Micronics' revolutionary new printer has taken customer motivation to new heights with this free-of-charge value-added software, which will work alongside your current system. The new Coupon Marketing Tool from Star will enable the automatic printing of coupons based on the retailer's predecided products or purchase values relevant to that transaction.

Seasonal fluctuations, overstock situations, and more can all be addressed by the retailer determining certain "trigger action" key words. The simple wizard-driven software will "word-search" all receipts to ascertain the automatic output of relevant coupons or graphics.

The new **IMAGE IMPORT TOOL** simplifies the logo store

set-up by eliminating the need for the usual image preparation work. An unlimited number of mono or color jpgs, gifs and bmps can be accessed by the control panel, saved by name and even prepared for output with a choice of dither methods. There is no longer any need to pre-size or pre-save an image file as a mono bmp, as was so often required by other POS

printers. The TSP100's unique **INSTALLATION SET-UP FACILITY**

will allow PCs to be preinstalled (not necessarily with the printer connected) for multiple printer use across the whole store. The new **PREVIEW TOOL** provides retailers and system builders with the ability to precheck the overall appearance of planned receipts by using the preview tool during set-up. This simple tool, again a rare facility in the POS world, will save much time.

The new **JOURNAL AND MULTI-COPY TOOL** from Star truly demonstrates the versatility of the Star TSP100 futurePRNT. Not only can the user now determine how many copies should be printed, but they can also specify

the different text and graphics required per copy – perfect for DIY retailers, pizza delivery companies to name just a few of the users that will really appreciate this tool.

The flexibility of the journal tool will allow users to create an Electronic Journal of all transactions, searchable by calendar date, which can be printed out at the end of day or week. All data is stored as a bitmap file (providing a true representation of all receipts and coupons printed).

## Star TSP100 System Builder Tools

Star has produced a dedicated **SDK** (Modular Software Developers Kit) with a wide range of tools available, allowing the system designer to take advantage of all the TSP100's software and hardware features e.g auto text reversal for vertical / wall mounted use. This feature can literally be dragged and dropped into the developer's software.

**PREINSTALLATION SET-UP TOOL** – with easy driver installation for all major platforms with CD-ROM supplied or using the Star designed architecture for fast modifications when needed.

All settings can be stored on the PC and “mirrored” across other TSP100 printers with a simple export configuration feature for mass system installations. *No printer pre-hardware configuration is needed.* The unique Printer Serial Number Identifier will also be ideal for remote polling for hardware audits, warranty / servicing issues etc.

### “DRAG & DROP” SOFTWARE FEATURE TOOL

Active X Components for Star Micronics Printer Feature Inclusion into OEM Software.

## Print Speed vs Throughput

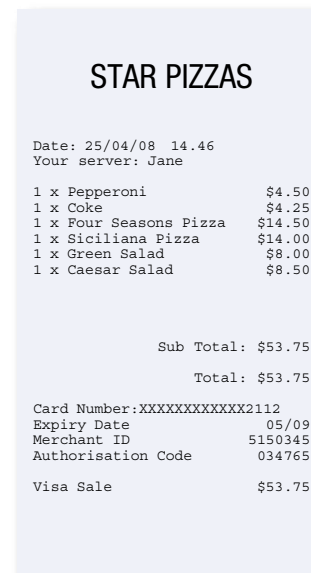

Over the last three years Star Micronics has introduced a variety of new products with such advanced processing power that the old fashioned method of measuring print speed has been made redundant. Simply measuring how fast the head will print one isolated mm of output does not take into account the total investment that has been put into the overall “build”.

Star Micronics feels it is necessary to show that a new method of measuring output speed is now required. Star will therefore be using the established standard in print speed measurement called **RPM** (Receipts Per Minute). This will measure the actual time taken to produce an entire receipt from the moment it is requested by the software to when it is produced – all in a laboratory controlled environment.

Star Micronics' TSP100 *futurePRNT*, is testament to the vast difference in throughput speed when using the very latest in printer technology.

Just look at the results in the table below. Users are no longer limited to using old fashioned, unexciting resident fonts on their receipts. The TSP100 *futurePRNT* is capable of producing the same number of receipts per minute using modern TrueType fonts instead.

Above are two receipts showing the use of resident fonts and the new improved version using TrueType fonts and graphics.

## Performance Results

Printer	Driver	Resolution (dpi)	Print Speed (mm/sec)	RPM (USB) with graphics
TSP100ECO	V.1.0 (USB)	203	150	Up to 28
TSP100U	V.1.0 (USB)	203	125	22
TSP100GT	V.1.0 (GT)	203	250	45
TSP650	V.1.0.0	203	150	30
TSP700II	Advanced Raster / Advance Line	203	250	48

80mm wide x 150mm long receipt (Win XP 2002 Service Pack 2 / Intel®, Core™2 CPU 6600 @ 2.4GHz / 2.4 Ghz, RAM 2.01GB)

# TSP100 futurePRNT

The World's **First** ECO POS Printer

**FREE 1 Year Swap-A-Star**

**Star has gone one step further with the development of the World's First dedicated ECO POS Printer designed to help Retailers around the world follow their Green Programs.**

## Key Features of the environmentally friendly TSP100futurePRNT ECO:

- Paper Saving-Reduce Paper Consumption Via:
  - ★ Automatic Top Paper Margin Reduced to 3mm
  - ★ Horizontal Receipt Compression
  - ★ Vertical Receipt Compression
  - ★ Receipt on Demand
  - ★ Eco Monitor Tools
- Efficient Power Management:
  - ★ Automatic Sleep Mode uses up to 40% less power than Standard Single Station Printer
  - ★ Instant wake-up at print out time
  - ★ Satisfies low-power Consumption requirements for Energy Star
- Certifications:
  - ★ Windows 7 Certified
  - ★ Energy Star Certified
- Color Housing:
  - ★ Available in gray and putty

## Environmentally Friendly

Star Micronics continues to take its environmental responsibility to the next level. Even with increases in manufacturing, Star has been able to reduce its waste volume by 19.2%. Through thorough research and development, as well as, world-wide employee awareness and contributions, Star's energy usage has been reduced by 6.9% (year on year). Our headquarters in Japan have taken "Reduce/Reuse/Recycle" to heart and has successfully achieved a recycling ratio of 99.6%. The TSP100ECO is a fast, affordable and highly flexible POS printer solution that is both Ecological and Economically friendly. The TSP100ECO has been designed to both serve tough retail environments and protect fragile ECO ones.

# TSP100<sup>GT</sup> futurePRNT Series

High Speed, 250 mm per second Receipt Printer with *futurePRNT* technology and **NEW** full gloss colors

**FREE 1 Year Swap-A-Star**

#### ★ Value-Added Software for Retailers:

- Receipt Re-design Tool including font replacement, cropping and logo / picture placement tools
- Coupon Marketing Tool
- Unlimited Image Import Tool
- Electronic Journal
- Journal and Multi-Copy Tool (up to 4 copies with individual graphic capability)
- Easy Set-Up, with or without the printer
- All designed to work in conjunction with your original POS software.

#### ★ Value-Added Software for OEMs, System Builders, Software Developers:

- Free Customer Software Tools
- Selectable Preview Tool
- Dedicated Software Developers Kit (SDK)

Choice of **NEW** full Gloss Piano Black or Ice White colors

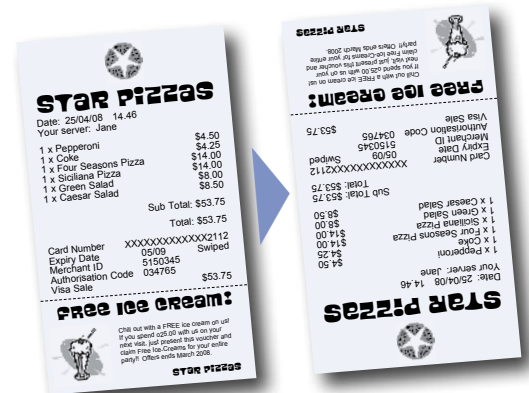

- New Star "Intuitive" Compatibility for Microsoft applications, including JavaPOS™ & OPOS™
- All printer features available from the printer's properties page in Windows®

**...more TSP100 printers are on pages 14 and 15, plus all the features and printer specifications.**

## Pre-Installation Set-Up Tool

**Reduce multiple printer installation time using the .xml facility to save all printer settings on the PC!**

All printer and *futurePRNT*™ software settings including logos, coupons, auto-text reversal for vertical use, etc. can all be easily pre-set using the included intuitive configuration software. These settings can then be distributed as an .xml file to all relevant PCs for mass system installations, so that there is now no need to remove the printer from the box before system deployment.

**Auto-Text Reversal™**

## NEW TSP100LAN futurePRNT

# Value Driven Ethernet version of the TSP100 futurePRNT

Ethernet is now the connection method of choice for the new breed of IT managers in hospitality and retail environments requiring fast, long distance and reliable communication. Simple, fast, reliable network connection using standard low cost Ethernet cabling combined with futurePRNT's software and simple installation procedures enhance the advantages of today's technology. This industry standard technology brings many advantages including the flexibility of having multiple printers on a central hub with easy IP setup, in addition to allowing managers the ease of remotely managing the printers on the network.

Usually, this extremely flexible choice of connection has come with a cost. Star is determined to change this with the TSP100LAN futurePRNT. Star is famous for its revolutionary futurePRNT software, quality hardware and entry-level price and the TSP100LAN is no exception. Like its predecessor, the TSP100U, everything is included "in the box" for a quick setup at the time of installation.

The TSP100LAN will negotiate with the networked host and automatically print an error if the connection is lost due to PC/Hub failure or cable damage, alerting the user that the printer is offline or "missing."

**FREE 1 Year Swap-A-Star**

## NEW TSP100 PoweredUSB Printers

# The World's 1st Dedicated Value Driven PoweredUSB Printer

The printer is supplied with two port covers for use depending on configuration chosen.

**Benefit from improved cable management and, more importantly, being able to cost-effectively use the same UPS on both your POS station and printer at the same price as a traditional printer.**

USB is now the industry's preferred communication link between a PC and a printer; so what is the next logical step – to combine the power supply and interface to produce PoweredUSB. As a result, Star has developed the world's first dedicated entry-level PoweredUSB printer offering significant cost advantages over competitor products for all types of retailers.

As usual, the POS market is in IT transition with the future looking at PoweredUSB terminals and peripherals. The key advantages include being able to cost-effectively include UPS (Uninterrupted Power Supply) cover on both the PC and printer so that all transactions will be protected. The TSP100 PUSB is therefore perfect to replace any single station printer with a free-of-charge upgrade path when the retailer decides to follow the industry and use PoweredUSB POS Terminals at the same price as a traditional single station printer.

To replace a single station serial printer, set the printer up as indicated: change the interface cable to USB and create a Virtual Serial Port using the utility included in the TSP100 Printer Properties Page under "TSP config".

# TSP650 Series

High Speed, Value Driven Receipt Printer

- High performance, entry-level receipt printer capable of printing at a non-hesitating 150mm per second with an outstanding data throughput
- High quality 203 dpi print quality with barcode capability including 2D for receipts, coupons and ticketing, etc.
- Highly versatile printer with small compact footprint and choice of two paper widths 58mm or 80mm as well as the Star "Drop-In & Print", easy-load feature
- Start up accessories provided with printer include:
  - ★ Operating CD with a suite of drivers
  - ★ Wall mount plate with vertical kit including both horizontal and vertical mount paper near end sensors
  - ★ Paper guide for choice of 58mm or 80mm paper widths
  - ★ Power switch cover to prevent accidental switch off
  - ★ Start up paper roll
- TSP650 options include:
  - ★ Ticket Alarm (Buzzer)
  - ★ Power Supply PS60
  - ★ Splash Proof Cover
  - ★ Vertical Display Stand

## Typical Applications

- Point-of-Sale
- Ticketing
- Retail
- Hospitality

**TSP651** Tear Bar Version

**TSP654** Autocutter Version

All models are available in Putty or Gray.

## High Performance at Entry-Level Pricing

Using Star's newly established method of measuring printer performance, the TSP650 Series is capable of producing high quality (203 dpi) receipts at a rapid 30 receipts / minute – with an unrivaled processing power, while still remaining at an entry-level price. Very few customers can pay faster than that!

See the Receipts Per Minute table on page 11 for comparable model print speeds.

Optional Vertical Display Stand with in-store A5 graphics facility

Two color output – red & black or blue & black

Tear Bar and Autocutter versions

High quality barcodes for coupons or tickets

Easily interchangeable interfaces - USB, Ethernet, Serial and Parallel

"Drop-In & Print" Easy Load

Vertical Mount

Splash Proof Cover option adds extra protection

Power Switch Cover

Wall Mount Included

Compatibility with all Major Operating Systems

## Star Choice to Suit Your Budget

Once again, Star has produced a high speed, entry-level receipt printer which will easily fit into the majority of POS and Hospitality solutions. Producing fast, high quality receipts with the very latest, leading edge components, this printer takes data processing to a new level.

Only Star is able to offer such a huge range of single station POS printers and the TSP650 extends the choice to suit your budget.

**NEW**

# FVP-10 Series

Front Loading, Voice-Enabled Printer

- Its square design & front paper loading allow for easy under-counter mount
- The flat top can accept up to 7 pounds and therefore it can be used as a platform to mount other POS devices
- Advanced futurePRNT function  
Communicate important information to both staff and customers
  - ★ Before and After Print Announcements
  - ★ Receipt Content Messages
  - ★ Error Messages
- "Print" any Sound, Any Language - Completely Customizable
- High print speed of 54RPM (250mm/sec)
- Front exit face up reversible print - deliver a readable receipt directly to your customer
- Drip proof (IPX1 Certified)
- Standard USB connection with the ability to add other swappable interfaces (Serial, Parallel, Ethernet, PoweredUSB)
- Lowest noise emission in its class
- Print compression functions - without modifying application software
  - ★ Vertical by 50%
  - ★ Horizontal down to 67% of original
- Start up accessories provided with printer include:
  - ★ Installation CD (Printer Driver / Configuration Utility / Manuals)
  - ★ 1.8m USB Cable
  - ★ Interface Cover
  - ★ Power Switch Cover
  - ★ Setup Sheets
  - ★ Start Up Paper Roll
- FVP-10 options include:
  - ★ Color Housing: Gray (Standard) & Putty (Optional)
  - ★ Cable Cover Unit
  - ★ Under Counter Mount Kit
  - ★ Power Supply (PS60A)

## Star Micronics has developed the FVP-10 to assist users who:

- Have counter space challenges
- Require a splash and dust resistant printer
- Need to print a receipt as fast as possible to decrease customer wait time
- Want to communicate to staff and customers in a language they understand

## Typical Applications

- Point-of-Sale
- Retail
- Hospitality

Text to voice feature enables communication of important information to both staff and customers

Standard Onboard USB with Optional Serial, Parallel, PoweredUSB or Ethernet Interfaces

Front Loading Design

"Drop-In & Print"

Under-the-Counter Mounting Saves Valuable Space

Recessed Cable Connections

Drip Proof (IPX1 Certified)

Square Design and Platform Top provides Space for other Items

Compatibility with all Major Operating Systems

Options	Cable Cover Unit, Under-Counter Mount Kit, Power Supply (PS60A), Swap-A-Star Extended Warranty Program (US), Extend-A-Star Extended Warranty Program (US and Canada)

### New Star Benefits Include:

- Front Loading / Front Exit Print Facing Up / Rotated Print - deliver that receipt directly to the customer
- Receipt Compression - Vertical / Horizontal - Saves Paper
- Versatile Mounting Options - Under Counter as a Platform
- High Print Speed of 54RPM (250mm/sec)

# TSP700II Series

High Speed Multi-functional Barcode, Label, Ticket and Receipt Printers

- The TSP700II, one of the World's Fastest Single Station Receipt Printers capable of producing barcodes, labels and tickets at a rapid 48RPM (250mm/sec.)
- Compatibility with the majority of operating platforms with a quality suite of drivers including Microsoft digital signature certification (WHQL) for the TSP700II using the USB interface for seamless integration
- Large paper roll diameter up to 100mm providing almost twice as much paper capacity as competitors
- "Drop-In & Print", easy paper loading. Literally drop a roll of paper into the printer, close the lid, and it's loaded!
- Full or partial cut autocutter (MCBF 2 million cuts)
- New splash resistant design with easy-clean curves for robust kitchen / bar use
- Two color output for emphasis, using special two color paper
- Available with Serial, Parallel, USB, PoweredUSB, Ethernet, or WiFi swappable interfaces
- Versatile user choice of paper widths; 80mm standard with removable paper guide fitted, 82.5mm for lottery applications and 58mm for labeling
- Available in Putty or Gray

## Typical Applications

- **High Speed Receipt Printer**
- **Reliable Hospitality Printer** with optional "Splash Proof" cover
- **Barcode, Label & Ticket Printer** with External Paper Feed Path and Black Mark Sensor
- **Lottery Printer** 82.5mm print width with 1st column printing
- **Kiosk Printer** versatile mounting and external paper feed path

**3 Year Bumper-to-Bumper Warranty**

New features included in the box at purchase: Driver CD, Wall & Vertical Mount Kits, Interface & Power Switch Covers

# TSP800 Series

High Speed, Wide Format Barcode, Label, Receipt and Ticket Printer

- Versatile 180mm / sec Barcode, Label, Receipt & Ticket Printer with Autocutter
- Unique 104mm / 4" print width – on paper stock up to 0.15mm thick. 82.5, 80 and 58mm paper rolls can also be accommodated using the optional paper guide
- Internal or External Paper Feed Paths (external for large capacity or security applications)
- "Drop-In & Print", easy paper loading
- Two color output with special thermal paper – red / black, blue / black, green / black
- Driver CD in box

- Compact Footprint (180 (w) x 213 (d) x 148 (h) mm) with Vertical Display Stand and Wall Mount options
- ESC/POS™ compatible in standard and wide width mode
- Automatic scalable raster driver for immediate A4 reduction to 4.4". Ideal for desktop replacement printer, internet café and kiosk use

## Typical Applications

- **High Quality POS Receipt Printer**  
with shelf edge labeling feature
- **Barcode Printer**
- **Ticket / Label / Kiosk / Information Terminal Printer**  
with black mark sensor
- **Kiosk Information Terminal Printer**  
Vertical Display Stand & external paper feed path

- **Internet Printer**  
Screen image reduction feature
- **Remote Printer**
- **Industrial Printer**  
Data logging, journals – high capacity paper rolls

<b>TSP847D</b>	Serial Interface
<b>TSP847C</b>	Parallel Interface
<b>TSP847U</b>	USB Interface
<b>TSP847L</b>	Ethernet Interface

*Models are available in Putty or Gray.*

Serial, Parallel, USB, Ethernet and WiFi interfaces available

Versatile 112mm output for all retail and kiosk environments

Unique kiosk printer for automatically scaled A4 to 4.4" output.

External paper feed path for secure or high capacity applications

Wall mount and Vertical Display Stand option

112mm paper width standard. 82.5 and 80mm paper also available with optional paper guide

Barcodes, labels, receipts and tickets all from one model

Automatic Second Copy Raster Driver

## TSP800 Printer Specifications

Printer Method	Direct Thermal
Print Speed	Max. 180mm/sec.
No. of Columns (maximum)	Printable Width 104mm
Resolution	203 dpi (8 dots per mm)
Character Matrix	ANK. 12 x 24. IBM Graphic 12 x 32
Character Set	ANK 95, 32 Int 128 Graphic
Print Width	Up to 104mm / 832 dots
Code Pages / Character Table	40 Code pages, Katakana, IBM
Barcodes	9 versions including 2D codes (PDF417 and QR Code)
Line Spacing	3mm or 4mm (selectable)
Paper Specifications:	
Width	112mm
Roll Diameter	100mm
Thickness	0.065 ~ 0.15mm
Loading	"Drop-in & Print"
Printer Reliability:	
Printer	37 Million Lines
Print Head	100 Km
Cutter (Guillotine)	0.065 ~ 0.075mm (Up to 2 Million Cuts)
Emulation	Star Line & Page Mode, DP8340 Mode & ESC/POS™
Interface	Serial, Parallel, USB, Ethernet, WiFi swappable interfaces
Data Buffer	4 KByte / 8 KByte 1 Line Selectable
Peripheral Drive	2 Drivers + 1 Compulsion Input
Safety Standards	UL, C-UL, TÜV, CB
EMI	FCC, VCCI, EN55022, CE marking
Drivers Available	Windows® XP 32 Bit, Vista 32/64 Bit, Windows 7 32/64 Bit, Server 2008 32/64 Bit, XP Embedded, CE, POSReady 2009, OPOS™, JavaPOS™, USB Vendor Class, Linux™, Mac OS X, StarIO, Scalable Raster Driver
Operating Conditions:	
Temperature	5 ~ 45°C
Humidity	10 ~ 90% RH (Non condensation)
Storage Conditions:	
Temperature	-20 ~ +60°C
Humidity	10 ~ 90% RH (Non condensation)
Power Supply Requirements	24V + 10% External – PS60 option
Power Consumption	Average 1.8A Printing, Ave. 0.1A Standby
Overall Dimensions	180 (W) x 213 (D) x 148 (H) mm
Weight	1.7Kg (without paper)
Options	PS60 Power Supply Paper guide for 58, 80 or 82.5mm paper Power Switch Cover Serial, Parallel, USB, Ethernet, WiFi interfaces Wall and Vertical Mount Kits Swap-A-Star / Extend-A-Star
Additional Features	Full and Partial Cut, Rear Paper Path, Near End Paper Sensor, Black Mark Sensor, Putty or Gray Colors, Logo Store, Power Switch Cover

## Automatic Page Scaling – A4 to virtual A6

The **TSP800 Scalable Raster Driver** provides the ability to format a page or screen image in the same way as a standard PC printer and then print that image on 112mm wide paper up to 0.15mm thick. All this at up to 180mm / sec, without the need for additional software!

# TSP800Rx Series

## High Speed Secured Prescription Printer

- Locking paper chamber
- Small desktop footprint
- Lock slot for locking cable harness
- Disabled paper feed button
- Jam proof patented cutter with full or partial cut & high print speed
- Easy “drop & print” paper loading
- Multiple interface versions
- Large paper roll capacity
- Logo storage utility
- Power supply included with printer
- Printer drivers on CD included with printer
- Available in Gray only

### Typical Applications

- Physician's Office
- Clinics
- Emergency Rooms
- Pharmacies

### TSP800Rx Printer Specifications

Printer Method	Direct Thermal	Paper Specifications:	
Print Speed	up to 150mm	Width	80mm or 112mm
Paper Feed Speed	150mm / second	Roll Diameter	Maximum 110mm
Resolution	203 dpi (8 dots / mm)	Thickness	Up to 190mm Maximum
Print Width	104mm maximum	Paper Loading	“Drop-In & Print”, Easy Load
Interface	Serial, Parallel, USB, Ethernet, WiFi Swappable Interfaces	Reliability:	
Interface Options	USB, RS232C Serial, Parallel, Ethernet, WiFi	Printer	MCBF 37 Million Lines
Emulation	Star Line Mode / Page Mode	Print Head	100 km
Options	Swap-A-Star / Extend-A-Star Available Vertical/Wall Mount Brackets	Operating Conditions	Temperature 5 ~ 45°C Humidity 10% to 90% RH (without condensation)
		Storage Conditions (not including paper)	Temperature -20 ~ +60°C Humidity 10% to 90% RH (without condensation)
		Overall Dimensions	180(W) x 213(D) x 148(H) mm

# TSP828 Series

Dedicated Direct Thermal Label Printer with Automatic Label Peeler

- High speed, high resolution output
- Fully adjustable label widths
- Easy-Load
- Automatic label peeler as standard (can be easily disabled when required)
- Multiple interface versions
- Large capacity paper roll with rear feed security feature
- New, low cost Ethernet option
- Star Line & Page Mode
- Barcode support: Ladder and 2 Dimensional
- Transmissive / or Reflective sensor for top of form recognition
- Paper End and Label Peeler sensors
- Windows™ Drivers on CD included with printer

## Typical Applications

- Retail Point-of-Sale
- Shelf Labeling
- Inventory Control

- Product Labeling
- Shipping
- Couriers / Logistics
- Warehouse
- Mailing etc.

## FREE Labeling Software

A free OEM version of **BarTender** – the world-renowned label creation software, is available with every TSP828.

## TSP828 Printer Specifications

Printer Method	Direct Line Thermal
Print Speed	up to 150mm / second / 35 lps @ 6 lpi (47 lps @ 8 lpi)
Paper Feed Speed	150mm / second
Resolution	203 dpi (8 dots / mm)
Print Width	104mm maximum
Interface	DualUSB / Serial, Parallel, Ethernet, WiFi Swappable Interfaces
Emulation	Star Line Mode / Page Mode
Printer Dimensions	180 (w) x 213 (d) x 157 (h) mm

Paper Specifications:	
Width	41 to 108mm (±0.5mm) Thermal Label Roll 45 to 112mm (±0.5mm) Thermal Paper Roll
Roll Diameter	Maximum 110mm
Thickness	Up to 190µm maximum
Paper Loading	"Drop-In & Print", Easy Load
Reliability:	
Printer	MCBF 37 Million Lines
Print Head	100 km
Operating Conditions	Temperature 5 ~ 45°C Humidity 10% to 90% RH (without condensation)
Storage Conditions (not including paper)	Temperature -20 ~ +60°C Humidity 10% to 90% RH (without condensation)

# TSP1000 Series

Versatile, Low Cost Thermal Printers with Receipt / Ticket Stacker

- High-speed output – up to 180mm per second
- “Drop-In & Print ” paper loading
- Large paper roll capacity (up to 180mm diameter) with adjustable paper low sensor
- Ticket Stacker fitted as standard (up to 30 tickets) with fitted sensor for software driven multiple or single ticket / kitchen order print out
- Guillotine cutter
- Multiple paper width (45 ~ 82.5mm adjustable)

- Two color output available – red / black or blue / black, green / black (special paper required)
- Variable position, high quality black mark sensor
- Four color versions – Putty and Gray- Standard Red and Blue- Special Order

## Typical Applications

- **High Speed Ticket Printer** with high capacity paper roll and ticket stacker for group / family tickets

- **Reliable Kitchen / Warehouse Picking Ticket Printer** with stacker for multiple orders
- **Versatile Receipt Printer** for high volume receipt printing where the receipts are usually left behind
- **Lottery Printer** 82.5mm print width with 1st column printing

- TSP1043D** Serial Interface
- TSP1043C** Parallel Interface
- TSP1043U** USB Interface
- TSP1043L** Ethernet Interface

Two-color output with running costs comparable to other POS technologies

Compatible with majority of POS operating platforms with quality suite of drivers

The high capacity 7in diameter paper roll can provide over 3,000 3.5in tickets / food orders

Unique stacker for up to 30 tickets / kitchen orders, with a software definable sensor for maintaining table priority etc.

Simple, but effective security feature to avoid the theft of valuable ticket stock or even the printer itself

Designed specifically for kitchen use with secure stacker for orders, buzzer alarm etc.

## TSP1000 Printer Specifications

Printer Method	Direct Thermal
Print Speed	up to 180mm per second
Print Resolution	203 dpi (8 dots per mm)
2 Color Print Capability	Red / Black, Blue / Black, Green / Black (special paper required)
No. of Columns (maximum)	Star Mode = 40, ESC/POS™ Font A 42 Font B 64
Character Set	ANK 95, 32 Int 128 Graphic
International Code Pages	Star Mode = 40, ESC/POS™ = 10 + 1 blank allowing an additional character page to be added
Barcodes	9 versions / PDF417 option, Maxicode
Line Spacing	3mm or 4mm + programmable
Paper Specifications:	
Width	45 ~ 82.5mm (variable with 80mm default)
Thickness / Weight	0.065mm ~ 0.15mm
Roll Outer Diameter	180mm (dependant on paper weight)
Easy-Load	"Drop-In & Print"
Paper Out Sensor	Standard
Maximum Print Width	Maximum 80mm
Left / Right Margin	0mm (left or right), 1st column print
Ticket Stacker	30 receipts / tickets maximum with ticket sensor
Ticket Length	50 ~ 300mm
Autocutter	Guillotine (Full Cut only)
Cutter position	Approx. 11mm distance between cutter and top of form
Logo Store Capacity	2 Mbit
Flash ROM / SRAM	2 x 8 Mbit plus 2 x 1 Mbit Static RAM
Drivers Available	Windows® XP 32 Bit, Vista 32/64 Bit, Windows 7 32/64 Bit, Server 2008 32/64 Bit, XP Embedded, CE, POSReady 2009, USB Vendor Class, Linux™, Mac OS X, StarIO
Interface / Port	Serial, Parallel, USB, Ethernet swappable interfaces
Emulation	Star Line & Page Mode, ESC/POS™
Peripheral Drive Circuit	2 circuits (24V max.1A), 1 Compulsion input
Power Consumption	Average 2.0 Amp Printing, 0.1 Amp Standby
Power Supply	External option PS60
Operating Conditions:	
Temperature	5°C to 45°C
Humidity	10% to 90% RH (Without Condensation)
Storage Conditions:	
Temperature	-20°C to 60°C
Humidity	10% to 90% RH (Without Condensation)
Dimensions	161 (W) x 306.5 (D) x 249 (H) mm
Weight	3.0Kg
Safety Standards	UL, C-UL, TÜV, FCC, VCCI, EN55022, CE, CB
Reliability:	
MCBF	60 Million Lines
Print head	100km
Cutter (Guillotine)	1 Million Cuts
Options	Swap-A-Star / Extend-A-Star

**NEW**

# HSP7000 Series

The World's Fastest Thermal / Impact Slip Hybrid Combination Printer

The HSP7000 combines key features from Star Micronics celebrated range to produce the world's fastest hybrid printer. This printer incorporates the same high quality thermal print mechanism designed for the industry-leading TSP100GT with the widely renowned futurePRINT marketing software producing high quality 203 dpi receipts. The impact station incorporates components from the high speed SP700 impact printer.

- High Speed 250 mm / second thermal receipt printer (the world's fastest) combined with high speed 9-pin impact check / validation printer (up to 8.9 lps at 16 column or 4.82 lps at 40 column)
- High resolution 203 dpi output for fast, superior quality logo / barcode receipt output compared with competitor's 180 dpi print quality
- Designed specifically with the user in mind, the HSP7000 is simplicity itself with:
  - "Drop-In & Print", Easy-load for fast thermal receipt paper replacement
- Intelligent front loading with instant top of form positioning for fast accurate check printing and 1 + 3 form validation / endorsement
- Fast, easy and accessible ribbon replacement with cover sensor to minimize any possible user error
- Auto status back for paper loading, sensor reporting etc. to minimize downtime, programming time and costs

- The OEM / System builder's dream with Star Micronics' famous suite of operating platform / emulation support including Microsoft® Win2K/XP™, Vista Windows 7, WePOS™, Win XP Embedded™, OPOS™, JavaPOS™, Linux™, MAC™ with Star Mode and ESC/POS™ emulations
- Two color output for when paper costs reduce as a result of higher volume usage in the near future
- Variable paper widths to minimize costs or match existing software – 80mm default with guide provided for fast transfer to 76 or 58mm paper widths

## Typical Applications

- **POS Printer**  
Perfect for combined and accurate, high speed 203 dpi receipt and 9-pin check printing. The predicted withdrawal of checks has not materialized with retailers globally still seeing a significant percentage of sales transactions taking place using checks
- **Tough Record and Form Printer** Fast, accurate form completion with high speed record output for Electronic and DIY retailers (for product warranties etc.)  
Up to 4 copies available

**HSP7543** Hybrid Combination without MICR

**HSP7643** Hybrid Combination with top position MICR

**HSP7743** Hybrid Combination with bottom position MICR

(MICR = Magnetic Ink Character Recognition, used in check-reading devices)

User friendly with simple ribbon replacement

Top or Bottom MICR

Top or Bottom position MICR versions

"Drop-In & Print", Easy-load

High quality 203 dpi logo and barcode printer

High quality, single pass check printer

Fast and accurate voucher endorsement

Up to 4 part slip station - perfect for warranty and DIY applications

**JAVAPOS™**

Compatibility with all Major Operating Systems

## HSP7000 Printer Specifications

Print Speed:	
Thermal	Up to 250 mm / second

## Star Support

Star Micronics continues to invest money and effort towards providing support for a wide selection of platforms with a full range of sophisticated printer drivers. Star Micronics' latest products demonstrate our determination to provide the best printers on the market with new "intuitive" installation software for Microsoft® applications including JavaPOS™ and OPOS™ with Microsoft® digital signature certification (WHQL) as well as support for POS. Net, XP Embedded, CE and WePOS.

# DP8340 Series

Compact, Wide Format (114mm), Receipt / Record Printers

Unique 114mm wide report, receipt and data printer available for 12V usage in mobile, rugged or unattended environments.

- Reliable budget entry level printer with tear bar
- Up to 2 lines per second with a paper feed speed of 12 lps
- Black and red printing support
- Separate 230v AC power supply with 12v DC output

## Typical Applications

- **Receipt Printer**
- **Record Printer**  
Data logging, Measuring equipment
- **Mobile Printing** 12 volt applications
- **Graphics Version** Details upon request

- DP8340FM** RJ45 Serial Friction, Black / Red
- DP8340FC** Parallel Friction, Black / Red
- DP8340SM** RJ45 Serial Sprocket, Black / Red
- DP8340SC** Parallel Sprocket, Black / Red
- DP8340RM** 3.25" wide, RJ45 Serial Friction Black / Red
- DP8340RC** 3.25" wide, Parallel Friction, Black / Red

## DP8340 Printer Specifications

Printer Method	9-pin Dot Matrix
Print Speed	Up to 2 lines per second (bi-directional)
Number of Columns	40 (12 CPI) 48 or 60 column option
Print Area	84.3mm
Line Spacing	1/6"
Character Size	12 CPI
Character Set	ASCII 96 International and Symbol 64 Block graphics 64 IBM Special 83 & Block graphics 50 (available only on parallel interface) Download 10 (available only on parallel interface)

No. of Copies	One original + 1 copy
Operating Conditions	5°C to 40°C, 10% to 80% RH (w/o condensation)
Storage Conditions	-20°C to 70°C, 5% to 95% RH (w/o condensation)
Data Buffer	Approx. 1.5 KByte
Interface	Serial (RJ45) and 20 mA current loop or Parallel
Dimensions	202 (W) x 200 (D) x 98 (H) mm (w/o paper holder)
Weight	Approx. 1.9Kg
Drivers Available	Windows® XP 32 Bit, Vista 32/64 Bit, Windows 7 32/64 Bit, Server 2008 32/64 Bit, XP Embedded, CE, POSReady 2009, OPOS™, StarIO
Peripheral Drive	Serial – Internal output / Parallel – 1 internal & 1 external (no compulsion switch)
Options	Mobile Power Supply
<b>PS8340 Power Supply Unit</b>	
Output	DC 12V ± 10% (Max. 2A)
Dimensions	59 (W) x 117 (D) x 36 (H) mm
Weight	2.0Kg

# SP500 Series

The logic seeking SP500 Series offers an unbeatable price / performance ratio unmatched by any other manufacturer

Vertical footprint:  
163mm deep  
by 140mm wide

- High speed, logic seeking, 9-pin quality matrix printer – up to 7.5 lps
- Serial, Parallel, USB and Ethernet swappable interfaces
- Competitively priced with unmatched feature per cost ratio
- “Drop-In & Print” paper loading facility
- Adjustable 58 or 76mm paper widths
- Quality ticket output on media up to 0.10mm with 6 position Black Mark Sensor
- Spill-proof design for bar / kitchen environments with power switch covers and recessed cable connections
- Space saving vertical or horizontal operation
- Wall mount option
- Internal universal power supply
- Journal / Rewind option
- Compact footprint with internal power supply and vertical operation

## Typical Applications

- Point of Sale
- Hospitality
- Kiosk
- Ticketing
- Fiscal

- SP512** Tear Bar Printer
- SP512R** Tear Bar Rewinder Version
- SP542** Autocutter Printer
- SP542R** Autocutter Rewinder Version

# SP700 Series

Advanced, High Speed Clamshell Receipt Printers

- High speed, 9-pin high quality printer capable of producing 13, twenty line receipts per minute (4.7 – 8.9 lps)
- “Drop-In & Print”, easy paper loading. Literally drop a roll of paper into the printer, close the lid and the paper is loaded!
- New splash resistant design with easy-clean curves for robust kitchen / bar use
- Two color output for emphasis purposes
- Internal power supply with universal cable included at purchase

- Value-Added Software for Retailers, OEMs, System Builders and Software Developers with Marketing and Graphics Tools including the new **Graphics Management Tool** with a name and list facility for easy identification and use for up to 255 images. This tool will also facilitate multiple printer configurations by enabling the PC to upload each complete graphics list quickly and simply.
- The **Logo Store Driver Tool** can download multiple images (mono or color in a variety of formats) by simply printing a document containing all the images

The **Virtual Serial Port Emulator** will allow Ethernet or USB interface use while still retaining legacy software.

- New Star Micronics “Intuitive” Compatibility for Microsoft applications including JavaPOS™, OPOS™ with Microsoft® digital signature certification (WHQL)

## Typical Applications

- **Receipt Printer**  
for POS systems that require an impact printer with high reliability and speed
- **Hospitality**  
Splash resistant cover. Ticket Alarm and Wall Mount Options

## High Speed Performance

Printer	Driver	Receipts Per Minute
<b>Star SP742</b>	<b>SP712 / 742 V1.0</b>	<b>13</b>

Results obtained printing 80mm wide x 150mm long receipt with Microsoft Windows XP™ on Pentium PC with CPU 1996MHz with 512MB RAM

- SP712** Tear Bar Printer
- SP712R** Tear Bar Rewinder Version
- SP742** Autocutter Printer
- SP742R** Autocutter Rewinder Version

Program ROM	Flash Memory (16Mbit), NV bit image 256 Kbyte
Emulation	Star Mode and ESC/POS™
Power Supply	Internal Power Supply with Power Cable Included
D.K.D. Function	2 Drivers
Drivers Available	Windows® XP 32 Bit, Vista 32/64 Bit, Windows 7 32/64 Bit, Server 2008 32/64 Bit, XP Embedded, CE, POSReady 2009, OPOS™, JavaPOS™, USB Vendor Class, Linux™, Mac OS X, StarIO
Reliability	MCBF 22 Million Lines
Overall Dimensions	160 (W) x 245 (D) x 152 (H) mm 164 (W) x 245 (D) x 152 (H) mm (rewinder versions)
Weight	SP712: 2.96Kg, SP742: 3.18Kg, SP712R: 3.43Kg, SP742R: 3.65Kg
EMI Standard	VCCI Class A, FCC Class A, CE
Safety Standard	UL, C-UL, TÜV, CB, EN60950
Options	Ticket Alarm, Wall Mount / Vertical Kit Swap-A-Star / Extend-A-Star

# SP298 Series

Fast, Reliable, Cost Effective Impact Slip Printers

- Rugged bi-directional printer capable of graphics using a highly reliable 9-pin print head
- Up to 3.1 lines per second with bi-directional check mode
- 9 Million Lines MCBF

## Typical Applications

Ideal for printing 'company branded' pre-printed multi-part slips / forms

- Hotels
- Restaurants
- POS
- Pharmacy Printer

**SP298 MD** Serial Version

**SP298 MC** Parallel Version

## Unique AutoSide Loading™

The SP298 features unique paper AutoSide Loading™ making document loading quick, easy and reliable.

The user can simply introduce a form into the side of the station and the printer performs automatic document clamping, instant top of form alignment, fast printing and selectable forward or reverse document eject.

## SP298 Printer Specifications

Print Method	9-Pin Serial Impact Dot Matrix
Print Speed	3.1 lines per second
Emulation	Star Mode & ESC/POS™ (Epson TM-U295)
Interface	Serial or Parallel
Paper:	
Copy Capability	Original + Two Copies
Paper Width / Length	69 / 80mm (minimum)
Paper Thickness	0.09 ~ 0.20mm
Margin Top / Bottom	5 / 14mm
Paper Feed Speed	
Forward / Reverse	3.5 / 4.5 inches per second or 21 / 27 lines per second
Number of Columns	42 (7 x 9 font)
Print Width	63mm
Peripheral Driver	Two drivers with compulsion switch input

Buffer:	
Star Mode	2048 Bytes
ESC/POS™ Mode	512 Bytes or 35 Bytes
Reliability	9 Million Lines MCBF
Head Life	70 Million Characters
Power Supply	Option 100 ~ 240 V AC / 24V DC
Dimensions	180 (W) x 190 (D) x 138.5 (H) mm
Weight	2.1Kg (approx.)
Agency Approvals	UL, C-UL, FCC, TÜV, CE, CB
Ribbons	Black RC200B, 1.2 million characters RC2000D Laundry Ribbon
Drivers Available	Windows® XP 32 Bit, Vista 32/64 Bit, Windows 7 32/64 Bit, Server 2008 32/64 Bit, XP Embedded, CE, POSReady 2009, OPOS™, StarIO

# TUP500 & TUP900 Series

Complete Kiosk Printing Solutions available in Modular or Open Frame formats

## TUP500: The High Speed 220mm per second Kiosk Printing Solution

- Introducing the superfast, versatile open frame / modular kiosk printing solution from Star Micronics. Featuring speeds up to 220mm per second (with standard 150mm paper roll) and a default speed of 180 mm per second using the optional 250mm paper roll holder
- Adjustable 45 to 82.5mm paper width functionality with self centering width adjuster
- Barcodes receipts, tickets, labels (TUP542) etc. are all printed on media from 0.065mm to 0.15mm thick allowing for complete application functionality
- Options include:
  - 250mm paper roll holder for horizontal or vertical use (max. capacity 180mm in vertical mode)
  - Paper exit guide / bezel with flashing LED attraction mode
  - All models supplied without interface with low cost USB, Ethernet & traditional interface options
  - PS60 Power Supply
- Compatible with majority of operating platforms including OPOS™, JavaPOS™, Linux™, ESC/POS™ and Microsoft™ Windows with digital signature certification (WHQL)

TUP500 LED Flashing Paper Exit Guide

TUP500 Easy Paper Loading

## TUP900: The 80 – 112mm wide Kiosk Printing Solution

- High speed, cost efficient 150mm per second quality thermal barcode, receipt, ticket and A4 kiosk printing solution for 80 to 112mm formats up to 0.15mm thick
- Multi-position adjustable near end paper sensor with 80cm of cable for use with the high capacity paper roll supply option
- A4 to A6 automatic scalable raster driver for reduced, legible A4 or internet output on 112mm wide paper
- Adjustable horizontal or vertical mounted control panel with extended cable lengths
- Easy-load – simply lift and tilt the mechanism forward and insert the paper for automatic paper loading
- TUP992 options include:
  - 250mm paper roll holder (150mm standard). Max. capacity 180mm when mounted below printer
  - Choice of interfaces
  - PS60 power supply

### TUP592 & TUP992

Open frame printer solution with moveable control panel and paper near end sensors via extended cables

### TUP542 & TUP942

Non presenter version

### TUP500 & TUP900

Modular components available (see table)

## TUP500 Printer Specifications

### Mechanism - TMP542 & Cutter

Print Method	Direct Line Thermal Printing
Print Speed	Up to 220mm per second (for use with suitable 80 / 82.5mm high sensitivity paper with standard 150mm roll diameter) Default speed 180mm per second
Printable Width	Max. 80mm with 1st column print
Top Margin	11mm (3mm selectable with reverse feed)
Print Resolution	8 or 16 x 8 dots / mm (203 or 406 x 203 dpi)
Paper Feed Speed	up to 220mm per second
Paper Loading	Semi Automatic with easy "Lift & Tilt" Functionality
Paper Sensors	Black Mark / Paper End / Paper Low Sensors
Paper Specifications:	
Width	Min. 45mm to Max 82.5mm
Media	Thermal Paper Rolls
Two Colour Printing	Special Thermal Paper required
Thickness	0.065 ~ 0.15mm
Roll Diameter	15cm / 6" with 25.4cm / 10" option (RHU-T500)
Autocutter	Full Cut (Guillotine)
Autocutter Life	Up to 1 Million Cuts
Min. / max. Cut Length	TUP542: 25mm, TUP592: 75 ~ 300mm
Print Head Life	Max. 100 Million Pulses / 100 Km (using recommended paper)
Reliability	60 Million Lines MCBF
Mechanism Dimensions	TMP542: 135 (W) x 101 (D) x 103 (H) mm
Open Frame Dimensions	TUP592: 160 (W) x 234.1 (D) x 179 (H) mm
Without Presenter	TUP542: 160 (W) x 185 (D) x 179 (H) mm
Drivers	Windows® XP 32 Bit, Vista 32/64 Bit, Windows 7 32/64 Bit, Server 2008 32/64 Bit, XP Embedded, CE, POSReady 2009, OPOS™, JavaPOS™, USB Vendor Class, Linux™, Mac OS X, StarIO

Interface	TUP500 Series supplied without interface
Interface Options	USB (IFBD-HU05), Ethernet (IFBD-HE05), Parallel (IFBD-HC03), Serial RS232C (IFBD-HD03), 9-pin Serial (IFBD-HN03)
<b>Presenter Unit - PR500</b>	
Driving Motor	One DC Motor
Paper Loop	Upper Side Loop
Presenter Function	Document Eject Document Capture (Timed or Software Controllable)
Ejecting Speed	300mm/s
Paper Thickness	0.065 ~ 0.15mm
Paper Length	75 to 300mm with Journal Mode for End-of-Day Reporting
Paper Width	Min. 45mm to Max 82.5mm
Dimensions	135.1 (W) x 57 (D) x 76.3 (H) mm
Life	1 Million Receipts
<b>Control Board - TBD500</b>	
Flash ROM / SRAM	16 Mbit / 4 Mbit (2M x 2)
Logo Store	Enabled
Emulations	Star Line & Page Mode, ESC/POS™
Code Pages	Star Mode = 40 + 1 blank ESC/POS™ Mode = 10 + 1 blank
<b>TUP500 Open Frame and Mechanism Options</b>	
<ul style="list-style-type: none"> <li>• USB, Ethernet, Parallel, Serial RS232C, 9-pin Serial interface</li> <li>• PS60 Power Supply</li> <li>• 25cm / 10" Paper Roll Holder (RHU-T500)</li> <li>• Large Roll Damper Roller Unit (DRU-T500B)</li> <li>• Paper Exit Guide (SNOUT-T500) – LED lit with Flashing Attraction Mode</li> <li>• Weight Bar (heavy weight paper use) – PR5 (included at purchase)</li> </ul>	
<i>Please contact Star for other options when installing the TMP500 Mechanism</i>	

## TUP900 Printer Specifications

### Mechanism - TMP942 & Cutter

Print Method	Direct Thermal Line Printing
Print Speed	up to 150mm per second

# Portable Printers

Compact, Light Weight Portable Printing Solutions  
Available in Different Print Widths

**SM-S400**

**SM-S200**

**SM-T300**

**SM-S300**

## **SM-S200:** 2 Inch Portable Printer with Blue Light LCD Display

- 2 Inch Portable Printer
- 80 mm/sec
- Pocket Size - 80.5(W) x 113.5(D) x 46(H) mm
- Long Battery Life (6 Hours at 5 Minute Printing Intervals)
- Bluetooth 2.1 / Serial Connections
- Magnetic Stripe Reader
- Blue Light LCD Display
- Cover Open Sensor

## **SM-S300:** 3 Inch Portable Printer

- 3 Inch Portable Printer
- 65 mm/sec
- Pocket Size - 107.4(W) x 88.5(D) x 45(H) mm
- Long Battery Life (10 Hours at 5 Minute Printing Intervals)
- Bluetooth 2.1 / Serial Connections
- Magnetic Stripe Reader
- Supports Multiple Language Printing

## **SM-T300:** 3 Inch Ultra Durable Portable Printer with LCD Display

- 3 Inch Ultra Durable Portable Printer
- 75 mm/sec
- Pocket Size - 107.4(W) x 88.5(D) x 45(H) mm
- Long Battery Life (8 Hours at 5 Minute Printing Intervals)
- Bluetooth 2.1 / Serial Connections
- Magnetic Stripe Reader
- LCD Display
- Dust Protected, Splash Proof (IP54 Certified)

## **SM-S400:** 4 Inch Portable Printer

- 4 Inch Portable Printer
- 50 mm/sec
- Pocket Size - 138.4(W) x 88.5(D) x 45.7(H) mm
- Long Battery Life (11 Hours at 5 Minute Printing Intervals)
- Bluetooth 2.1 / Serial Connections
- Magnetic Stripe Reader
- Supports Multiple Language Printing

# Options & Accessories

## POWER SUPPLY

	Automotive 12V Power Adapter	12VDC to 12 VDC cigarette lighter (DP8340 only)
	Automotive 24V Power Adapter	24VDC to 12 VDC cigarette lighter (TSP600, TSP700II, TSP800, SP200)
	PS8340 ADAPTER SET EC	220VAC Power Supply Set (DP8340)
	PS8340 ADAPTER SET US	110VAC Power Supply Set (DP8340)
	PS-60 POWER SUPPLY	Universal 24VDC Output Power Supply for all other printers

## CABLES

	USB Cable	PoweredUSB Cable
	PoweredUSB Cable	TSP700II

## BUZZER

	<b>Buzzer Alarm</b>
	The Buzzer is designed to connect directly to the RJ11 port on the back of the printer. When a print job is sent to the printers, the buzzer will sound off. This is beneficial for high noise environments like kitchens to alert cooks that orders have been sent to them.

## SPLASH PROOF COVER

	<b>Splash Proof Cover for TSP700II</b>
	Increase splash resistance with this easy-to-install splash proof cover! The cover easily fits over the top of the printer securely, ensuring hours of operation in the most harsh restaurant environments.

## WALL MOUNT / VERTICAL MOUNT BRACKETS

	Wall Mount Bracket (TSP800)
	Wall Mount Bracket (TSP700II)
	Wall Mount Bracket (TSP600)
	Wall Mount Bracket (SP700)
	Wall Mount Bracket (SP500)
	Vertical Stand Kit (TSP800)
	Vertical Stand Kit (TSP700II)
	Vertical Stand Kit (TSP600)
	Vertical Stand Kit (SP700)
	Vertical Stand Kit (SP500)
	Vertical Display Mount (TSP650)
	Vertical Display Mount (TSP100)

## INTERFACES

Star offers a wide range of interfaces for its printers to meet customers' requests and system upgrades - including USB, Wi-Fi and Ethernet.

● ● ● OEM Items

### AUTOCUTTER

Star offers a range of auto cutters including full or "partial" cutter versions, as well as more "sophisticated" models which are capable of both.

### PAPER RE-WINDERS

The paper re-winders from the SP300 series are also available for OEM use with Star mechanisms.

### PRINT HEADS

Star's range of highly successful print heads have been used in a wide variety of applications from bus ticketing to check printing and other POS uses. Their success is the logical result of a consistently high reliability record, value for money and compact versatile design.

# Star Micronics Introduces New Service Agreement Policies

For years, Star Micronics has been producing elite printers, rich in reliability and strength, that have left our competitors in awe... but this time, we've really done it! After all, what could be more reliable than using a Star Micronics printer? *Using an insured Star Micronics printer!*

Star Micronics is proud to offer, for purchase, two extended service agreements to make customers feel even more confident when using Star printers. Star has taken the pain out of the warranty process and simplified the service agreement process.

***Best of all – customers have a choice!***

## EXTEND-A-STAR

*Added cost-efficient protection for printer maintenance*

- Extend Star's already included service warranty
- Bumper to bumper warranty
- Prompt repair turnovers
- Convenient online status of your printer is available
- Support available Monday-Friday from 9am-5pm (EST)
- Available in U.S. and Canada

## SWAP-A-STAR

*Convenient 24-hour printer replacement for optimum business productivity*

- Never halt business productivity because of a POS printer again
- Star replacement printer sent next business day
- Replacement support available Monday-Friday from 9am-5pm (EST)
- Paid shipping for damaged printer
- Available in U.S. and Canada

3 or 4 year warranty options available for both programs. Available on most thermal printers and the SP700 and SP500.
